Damage Photos (image-generation prompts)

Photo 1 (image-generation prompt, not a real image)

Photorealistic photo, front three-quarter view of a silver 2019 sedan with plate UBZ 482K (synthetic), crumpled front bumper and bonnet, daylight, urban street in a fictional African town. No real brand logos.

Photo 2 (image-generation prompt, not a real image)

Close-up of cracked headlamp and bent bumper bracket on the silver sedan, shallow depth of field, overcast light.

Photo 3 (image-generation prompt, not a real image)

Rear view of the same sedan showing plate UBZ 482K, undamaged rear, parked at kerb, for identification purposes. Add a small watermark: SYNTHETIC.
